Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see https://quarto.org.

Meet the penguins

The `penguins` data from the palmerpenguins package contains size measurements for 344 penguins from three species observed on three islands in the Palmer Archipelago, Antarctica (Horst et al. 2022). Borboroglu and Boersma (2015) describe more information about penguins in their book.

Flipper length (mm)
Penguin species
Adelie Penguin (Pygoscelis adeliae)
Chinstrap penguin (Pygoscelis antarctica)
Gentoo penguin (Pygoscelis papua)

There are 68 Chinstrap penguins. Which is more than 50, but less than 70.

Addition

```
do_addition <- function(number1, number2){

        # Check that arguments provided are numberic
        if(class(number1) != "numeric" | class(number2) != "numeric"){
                print("Error: one or more of your inputs are not numeric")

        # Perform simple addition and return the result
        } else{
                result <- number1 + number2
                return(result)
        }
}
```

```
do_addition(500, 50)
```

```
[1] 550
